Credits – Brew the Perfect Cold Brew at Home

A free mini-course by The Cold Brew Crew · created by @Mayline for ÉSTIAM, October 2026.

Made with AI

This course was made with the help of AI tools. The presenter is a fictional person generated by AI: he does not exist and his voice is synthetic. All clips, images and music are AI-generated. Every factual claim was checked against sources by a human before publication.

Human Work

Role	Who
Concept, course design, decisions	Mayline
Fact-check validation, gear prices checked in shops (22.10.2026)	Mayline
Video editing (Kdenlive), handout layout (Canva)	Mayline
Prompt testing and selection of every output	Mayline

AI Tools

Tool	What it made	Licence note
Google Gemini	Text drafts (concept, scripts, quizzes, production plan, style options); images: grind comparison, steep & filter, iced latte, presenter photo	Google Terms of Service
Google Flow (Veo 3.1 Lite, Nano Banana 2.1)	7 video clips; gear flat-lay image	Google Terms of Service

Tool	What it made	Licence note
Vidnoz (Talking Photo, English male voice)	Avatar video of the presenter	Commercial licence on the free plan, with watermark
MusicGen (Xenova web demo)	Background music (30 s, looped)	Non-commercial use only
Claude (Anthropic)	Reviews, fact-check research, prompt templates, process documents	—

The full prompt log, with every prompt and every decision, is in the project's `Process/` folder.

Software & Fonts

- Kdenlive (free, open source): video editing
- Canva (free plan): handout layout
- Space Grotesk and Plus Jakarta Sans (Google Fonts, Open Font License)
